SUPPLY CHAIN DIRECTOR.

SECTION B: INSTRUCTIONS TO TENDERERS.

Introduction

1. Eligible Tenderers

- 1.1 This Invitation for Tenders is open to all tenderers eligible as described in the tender documents.
- 1.2 Tenderers shall provide the qualification information statement that the tenderer (including all members of a joint venture and subcontractors) is not associated, or have been associated in the past, directly or indirectly, with a firm or any of its affiliates which have been engaged by Procurement entity to provide consulting services for the preparation of the design, specifications, and other documents to be used for the procurement of the submersible pumps under this Invitation for tenders.
- 1.3 Tenderers shall not be under a declaration of ineligibility for corrupt and fraudulent practices.

2. Eligible Submersible Pump

- 2.1 The submersible pump to be supplied under the contract shall have its origin in eligible source countries.
- 2.2 For purposes of this clause, “origin” means the place where the submersible pump is produced.
- 2.3 The origin of the submersible pump is distinct from the nationality of the tenderer.

3. Cost of Tendering

- 3.1 The Tenderer shall bear all costs associated with the preparation and submission of its tender, and Procurement entity, shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the tendering process.
- 3.2 The Tenderer, at the Tenderer’s own responsibility and risk and cost, must visit and examine the Site of the works and its surroundings, and obtain all information that may be necessary for preparing the tender and entering into a contract for construction of the Works.

The Tender Document

4 Contents

- 4.1 The tender document comprises the documents listed below and addenda issued in accordance with clause 6 of these instructions to tenders.
- (i) Instructions to Tenderers
 - (ii) General Conditions of Contract
 - (iii) Special Conditions of Contract
 - (iv) Bill of quantity-Price schedules
 - (v) Tender Form
 - (vi) Tender Security Form
 - (vii) Contract Form
 - (viii) Performance Security Form
 - (ix) Manufacturers authorization Form
 - (x) Drawings
- 4.2 The tenderer is expected to examine carefully all instructions, conditions, forms, terms, specifications, technical schedules and drawings/pictures in the tender documents. Failure to furnish all information required by the tender documents or to submit a tender not substantially responsive to the tender documents in every respect shall be at the tenderers risk and may result in the rejection of its tender.
- 4.3 All recipients of the documents for the proposed Contract for the purpose of submitting a tender (whether they submit a tender or not) shall treat the details of the documents as “private and confidential”.

5. Clarification of Tender Documents

- 5.1 A prospective tenderer requiring any clarification of the tender document may notify Procurement entity in writing or facsimile at our address indicated in the Invitation for tenders. Procurement entity shall respond in writing to any request for clarification of the tender documents, which it receives prior to the deadline for the submission of tenders. Written copies of Procurement entity's response (including an explanation of the query but without identifying the source of inquiry) shall be sent to all prospective tenderers that have received the tender document.

6. Amendment of Tender Documents

- 6.1 At any time prior to the deadline for submission of tenders, Procurement entity, for any reason, whether at its own initiative or in response to a clarification requested by a prospective tenderer, may modify the tender documents by issuing and addenda.

- 6.2 Any Addendum will be notified in writing or by email or facsimile to all prospective tenderers who have purchased the tender documents and will be binding upon them.
- 6.3 In order to allow prospective tenderers reasonable time in which to take the amendment into account in preparing their tenders, Procurement entity, at its discretion, may extend the deadline for the submission of tenders
- 6.4 If during the period of tendering, any circular letters (tender notices) shall be issued to tenderers by, or on behalf of, the Employer setting forth the interpretation to be placed on a part of the tender documents or to make any change in them, such circular letters will form part of the tender documents and it will be assumed that the tenderer has taken account of them in preparing his tender. The tenderer must promptly acknowledge any circular letters he may receive.

Preparation of Tenders

7.Language of Tender

- 7.1 The tender prepared by the tenderer, as well as all correspondence and documents relating to the tender exchanged by the tenderer and Procurement entity, shall be written in English language. Supporting documents and printed literature furnished by the tenderer with the tender may be in another language provided they are accompanied by an appropriate translation of pertinent passages in the above stated language. For the purpose of interpretation of the tender, the English language shall prevail.

8.Documents Comprising the Tender

- 8.1 The tender prepared by the tenderer shall comprise the following components:
 - (a) A Tender Form and a Price Schedule completed in accordance with paragraph 9, 10 and 11 below.
 - (b) Documentary evidence established in accordance with paragraph 12 that the tenderer is eligible to tender and is qualified to perform the contract if its tender is accepted;
 - (c) Documentary evidence established in accordance with paragraph 13 that the submersible pump to be supplied by the tenderer is eligible and conforms to the tender documents; and
 - (d) Tender security is furnished in accordance with paragraph 14
 - (e) Other documents required to be completed and submitted in accordance with the Instructions to Tenderers embodied in these tender documents.

9.Tender Form

9.1 The tenderer shall complete the Tender Form and the appropriate Price Schedule furnished in the tender documents, indicating the submersible pump to be supplied, and a brief description of the submersible pump, country of origin, and prices.

10.Tender Prices

10.1 The tenderer shall indicate on the appropriate Price Schedule the unit prices and total tender price of the submersible pump it proposes to supply under the contract.

10.2 The Tenderer shall fill in rates and prices for all items of the Works described in the Bill of Quantities/Schedule of Rates. Items for which no rate or price is entered by the Tenderer will not be paid for when executed and shall be deemed covered by the other rates and prices in the Bill of Quantities/Schedule of Rates. All duties, taxes and other levies payable by the Contractor under the Contract, as of 30 days prior to the deadline for submission of tenders, shall be included in the tender price submitted by the Tenderer.

10.3 Prices quoted by the tenderer shall be fixed during the Tenderer's performance of the contract and not subject to variation on any account. A tender submitted with an adjustable price quotation shall be treated as non-responsive and shall be rejected, pursuant to paragraph 22.

11.Tender Currencies

11.1 Prices shall be quoted in the following currencies:

- (a) For a submersible pump that the tenderer shall supply from within Kenya, the prices shall be quoted in Kenya shillings; and
- (b) For a submersible pump that the tenderer shall supply from outside Kenya, the prices shall be quoted in US dollars or in another freely convertible currency.

12. Tenderers Eligibility and Qualifications.

12.1 The tenderer shall furnish, as part of its tender, documents establishing the tenderers eligibility to tender and qualifications to perform the contract if it's tender is accepted.

12.2 The documentary evidence of the tenderers qualifications to perform the contract if tender is accepted shall establish to Procurement entity's satisfaction that the tenderer has the financial, technical, and production capability necessary to perform the contract effectively.

To be eligible for award of the contract, tenderers shall provide evidence satisfactory to the Employer, of their capacity and adequacy of resources to carry out the contract effectively. Schedule of works of a similar nature satisfactorily carried out by the tenderer in the last five years should be provided as per attached format to the form of tender.

13. Eligibility and Conformity to Tender Document.

Pursuant to paragraph 2 of this section, the tenderer shall furnish, as part of tender, documents establishing the eligibility and conformity to the tender documents of the submersible pump that the tenderer proposes to supply under the contract.

The documentary evidence of the eligibility of the submersible pump shall consist of a statement in the Price Schedule of the country of origin of the submersible pump offered and shall be confirmed by a certificate of origin issued at the time of shipment.

The documentary evidence of conformity of the submersible pump to the tender documents. Specification may be in the form of literature, drawings, and data, and shall consist of:

- (a) A detailed description of the essential technical and performance characteristics of the submersible pump;
- (b) Clause-by-clause commentary on Procurement entity's Technical Specifications demonstrating substantial responsiveness of the submersible pump and services to those specifications, or a statement of deviations and exceptions to the provisions of the Technical Specifications.

For purposes of the commentary to be furnished pursuant to paragraph 13.3(b) above, the tenderer shall note that standards for, material, and quality, as well as references to brand names or catalogue numbers designated by Procurement entity in its Technical Specifications, are intended to be descriptive only and not restrictive. The tenderer may substitute alternative standards, brand names, and/or catalogue numbers in the tender, provided that they demonstrates to Procurement entity's satisfaction that the substitutions ensure substantial equivalence to those designated in the Technical Specifications.

14. Tender Security

14.1 The tenderer shall furnish as part of his tender, a Tender Surety in the amount stated in the Appendix to Instructions to Tenderers.

14.2 The tender security is required to protect Procurement entity against the risk of Tenderer's conduct which would warrant the security's forfeiture, pursuant to paragraph 14.7

14.3 The tender security shall be denominated in Kenya Shillings or in another freely convertible currency, and shall be in the form of a bank guarantee or a bank draft issued by a reputable bank located in Kenya or abroad, in the form provided in the tender documents or another form acceptable to Procurement entity and valid for **thirty (30)** days beyond the validity of the tender.

14.4 Any tender not secured in accordance with paragraph 14.1 and 14.3 shall be rejected by Procurement entity as non-responsive, pursuant to paragraph 22.

- 14.5 Unsuccessful Tenderer's tender security shall be discharged or returned as promptly as possible, but not later than thirty (30) days after the expiration of the period of tender validity prescribed by Procurement entity.
- 14.6 The successful Tenderer's tender security shall be discharged upon the tenderer signing the contract, pursuant to paragraph 32, and furnishing the performance security, pursuant to paragraph 33.
- 14.7 The tender security may be forfeited:
- (a) If a tenderer withdraws tender during the period of tender validity specified by Procurement entity on the Tender Form; or
 - (b) In the case of a successful tenderer, if the tenderer fails:
 - (i) To sign the contract in accordance with paragraph 32
or
 - (ii) To furnish performance security in accordance with paragraph 33.

15. Validity of Tenders

Tenders shall remain valid for **120 days** (one hundred and twenty days) or as specified in the tender documents after date of tender opening or from the extended date of tender opening as prescribed by Procurement entity, pursuant to paragraph 18. A tender valid for a shorter period shall be rejected by Procurement entity as non-responsive.

In exceptional circumstances, Procurement entity may solicit the Tenderer's consent to an extension of the period of validity. The request and the responses thereto shall be made in writing. The tender security provided under paragraph 14 shall also be suitably extended. A tenderer may refuse the request without forfeiting its tender security. A tenderer granting the request shall not be required nor permitted to modify its tender.

16. Format and Signing of Tender

The tenderer shall prepare two copies of the tender, clearly marking each "**ORIGINAL TENDER**" and "**COPY OF TENDER,**" as appropriate. In the event of any discrepancy between them, the original shall govern.

The original and all copies of the tender shall be typed or written in indelible ink and shall be signed by the tenderer or a person or persons duly authorized to bind the tenderer to the contract. Written power-of-attorney accompanying the tender shall indicate the later authorization. The person or persons signing the tender shall initial all pages of the tender, except for un-amended printed literature.

The tender shall be without alterations, interlineations, erasures, or overwriting except as necessary to correct errors made by the tenderer, in which case such corrections shall be initialed by the person or persons signing the tender.

Submission of Tenders

17. Sealing and Marking of Tenders

The tenderer shall seal the original and each copy of the tender in separate envelopes, duly marking the envelopes as “ORIGINAL” and “COPY.” The envelopes shall then be sealed in an outer envelope.

The inner and outer envelopes shall:

- (a) Be addressed to Kenya Electricity Generating Company Ltd at the following address:

The Company Secretary
Kenya Electricity Generating Company
7th Floor, Stima Plaza Phase III
Kolobot Road, Parklands
P.O. Box 47936-00100
NAIROBI

- (b) Bear, "SUPPLY, INSTALLATION AND COMMISSIONING OF SUBMERSIBLE PUMP FOR MASINGA POWER STATION" the Invitation for tenders (IFT), and the words: “DO NOT OPEN BEFORE **Thursday, 10th May 2018 2017 before or on 2:00 pm.**

17.3 The inner envelopes shall also indicate the name and address of the tenderer to enable the tender to be returned unopened in case it is declared “late”.

17.4 If the outer envelope is not sealed and marked as required by paragraph 17.2, procurement entity shall assume no responsibility for the tender’s misplacement or premature opening.

18. Deadline for Submission of Tenders

Tenders must be received by Kenya Electricity Generating Company Ltd at the address specified under paragraph 17.2 and on the date and time specified.

Tenders delivered by hand must be in the office of the Employer before the deadline for Tender submission.

Proof of posting will not be accepted as proof of delivery and any tender delivered after the above stipulated time, from whatever cause arising will not be considered.

The procurement entity may, at its discretion, extend this deadline for the submission of tenders by amending the tender documents in accordance with paragraph 6, in which case all rights and obligations of Kenya Electricity Generating Company Ltd and candidates previously subject to the deadline shall thereafter be subject to the deadline as extended.

Any tender received by the procurement entity after the prescribed deadline for submission of tender will be returned unopened to the tenderer.

19. Modification and Withdrawal of Tenders

19.1 The tenderer may modify or withdraw its tender after the tender's submission, provided that written notice of the modification, including substitution or withdrawal of the tenders, is received by Procurement entity prior to the deadline prescribed for submission of tenders.

19.2 The Tenderer's modification or withdrawal notice shall be prepared, sealed, marked, and dispatched in accordance with the provisions of paragraph 17. A withdrawal notice may also be sent by cable, but followed by a signed confirmation copy, postmarked not later than the deadline for submission of tenders.

19.3 No tender may be modified after the deadline for submission of tenders.

19.4 No tender may be withdrawn in the interval between the deadline for submission of tenders and the expiration of the period of tender validity specified by the tenderer on the Tender Form. Withdrawal of a tender during this interval may result in the Tenderer's forfeiture of its tender security, pursuant to paragraph 14.7.

19.5 Subsequent to the expiration of the period of tender validity prescribed by the Employer, and the tenderer having not been notified by the Employer of the award of the Contract or the tenderer does not intend to conform with the request of the Employer to extend the period of tender validity, the tenderer may withdraw his tender without risk of forfeiture of the Tender Security.

19.6 Tender Submissions

For the tender to be considered substantially responsive, the following must be included in the tender submission and will form a criteria for preliminary evaluation as set out under the appendix to ITT below.

Opening and Evaluation of Tenders

20. Opening of Tenders

The Employer will open the tenders in the presence of the tenderers' representatives who choose to attend at the time and location indicated in the Letter of Invitation to Tender. The tenderers' representatives who are present shall sign a register evidencing their attendance.

20.2 At the tender opening, the procurement entity shall announce tenderers' names, tender modifications or withdrawals, tender prices, discounts, if any, the presence or absence of requisite tender security and such other details as Procurement entity, at its discretion, may consider appropriate. No tender shall be rejected at the tender opening except for late tenders.

20.3 Procurement entity shall prepare minutes of the tender opening.

21. Clarification of Tenders

21.1 To assist in the examination, evaluation and comparison of tenders Procurement entity may, at its discretion, ask the tenderer for a clarification of its tender. The request for clarification and the response shall be in writing, and no change in the prices or substance of the tender shall be sought, offered, or permitted.

21.2 Any effort by the tenderer to influence Procurement entity's tender evaluation, tender comparison or contract award decisions may result in the rejection of the tenderers' tender.

22. Preliminary Examination

22.1 Prior to detailed examination of tenders, Procurement entity shall carry out a preliminary to determine completeness of the submissions to enable detailed assessment for responsiveness. This examination shall be based on submitted documents listed under paragraph 19.6 above.

23. Technical Evaluation

Technical evaluation shall be carried out only on tenders determined to be responsive to the preliminary examination.

This evaluation will examine submitted documents listed under clause 25 for compliance to specifications as stipulated in the criteria et under the appendix to ITT below.

24. Price Evaluation

24.1 Arithmetical errors shall be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the candidate does not accept the correction of the errors, its tender shall be rejected, and its tender security may be forfeited. If there is a discrepancy between words and figures, the amount in words shall prevail.

24.2 Procurement entity may waive any minor informality or non-conformity or irregularity in a tender which does not constitute a material deviation, provided such waiver does not prejudice or affect the relative ranking of the tenderer.

24.3 Prior to the detailed evaluation, pursuant to paragraph 23, Procurement entity shall determine the substantial responsiveness of each tender to the tender documents. For purposes of these paragraphs, a substantially responsive tender is one, which conforms to all the terms and conditions of the tender documents without material deviations. Procurement entity's determination of a tender's responsiveness is to be based on the contents of the tender itself without recourse to extrinsic evidence.

24.4 If a tender is not substantially responsive, it shall be rejected by Procurement entity and may not subsequently be made responsive by the tenderer by correction of the nonconformity.

25. Evaluation and Comparison of Tenders

25.1 Procurement entity shall evaluate and compare the tenders, which have been determined to be substantially responsive, pursuant to paragraph 23.

25.2 Procurement entity's evaluation of a tender shall exclude and not take into account:

- (a) In the case of a submersible pump manufactured in Kenya or a pump of foreign origin already located in Kenya, sales and other similar taxes, which shall be payable on the pump if a contract is awarded to the tenderer; and
- (b) Any allowance for price adjustment during the period of execution of the contract, if provided in the tender.

25.3 The comparison shall be of the ex-factory/ex-warehouse/off-the-shelf price of the submersible pump offered from within Kenya, such price to include all costs, as well as duties and taxes paid or payable on components and raw material incorporated or to be incorporated in the pump.

25.4 Procurement entity's evaluation of a tender shall take into account, in addition to the total tender price and the price of incidental services, the following factors: See the appendix to ITT below.

Pursuant to paragraph 23 the following **evaluation methods shall be applied:**

(a) Deviation in payment schedule.

Tenderers shall state their tender price for the payment schedule outlined in the special conditions of contract. Tenders shall be evaluated on the basis of this price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in tender price they wish to offer for such alternative payment schedule. Procurement entity may consider the alternative payment schedule offered by the selected tenderer.

(b) Delivery schedule

The procurement entity requires that pump under the invitation for Tenders shall be delivered at the time specified in the schedule of requirements. Tenders offering deliveries longer than the procurement entity's required delivery time shall be treated as non-responsive and rejected.

(c) Spare parts and after sales service

Tenderers must offer items with service and spare parts backup. Documentary evidence and locations of such backup must be given.

26. Contacting Procurement entity

Subject to paragraph 21, no tenderer shall contact Procurement entity on any matter relating to its tender, from the time of the tender opening to the time the contract is awarded.

Any effort by a tenderer to influence Procurement entity in its decisions on tender evaluation, tender comparison, or contract award may result in the rejection of the Tenderer's tender.

Award of Contract

27. Post-qualification

27.1 In the absence of pre-qualification, Procurement entity will award the Contract to the tenderer whose tender is determined to be responsive to the tender documents and who has offered the lowest evaluated tender price and possessing the capability and resources to effectively carry out the Contract Works.

27.2 The determination shall take into account the tenderer financial, technical, and production capabilities. It shall be based upon an examination of the documentary evidence of the tenderers qualifications submitted by the tenderer, pursuant to paragraph 12, as well as such other information as Procurement entity deems necessary and appropriate.

27.3 An affirmative determination shall be a pre-requisite for award of the contract to the tenderer. A negative determination shall result in rejection of the Tenderer's tender, in which event Procurement entity shall proceed to the next lowest evaluated tender to make a similar determination of that Tenderer's capabilities to perform satisfactorily.

28. Award Criteria

Subject to paragraph 10,23 and 28 Procurement entity shall award the contract to the successful tenderer(s) whose tender has been determined to be substantially responsive and has been determined to be the lowest evaluated tender, provided further that the tenderer is determined to be qualified to perform the contract satisfactorily.

29. Procurement entity's Right to Vary quantities

Procurement entity reserves the right at the time of contract award to increase or decrease the quantity of the submersible pumps originally specified in the Schedule of requirements without any change in unit price or other terms and conditions.

30. Procurement entity's Right to Accept or Reject Any or All Tenders

Procurement entity reserves the right to accept or reject any tender, and to annul the tendering process and reject all tenders at any time prior to contract award, without thereby

incurring any liability to the affected tenderer or tenderers or any obligation to inform the affected tenderer or tenderers of the grounds for Procurement entity's action.

31. Notification of Award

Prior to the expiration of the period of tender validity, Procurement entity shall notify the successful tenderer in writing that its tender has been accepted. This letter (hereinafter and in all Contract documents called "Letter of Award") shall name the sum (hereinafter and in all Contract documents called "the Contract Price") which the procurement entity will pay to the Contractor in consideration of the execution and completion of the Works as prescribed by the Contract

The notification of award shall constitute the formation of the Contract.

Upon the successful Tenderer's furnishing of the performance security pursuant to paragraph 33, Procurement entity shall promptly notify each unsuccessful Tenderer and shall discharge its tender security, pursuant to paragraph 14.5

32. Signing of Contract

At the same time as Procurement entity notifies the successful tenderer that its tender has been accepted, Procurement entity shall send the tenderer the Contract Form provided in the tender documents, incorporating all agreements between the parties.

Within thirty (30) days of receipt of the Contract Form, the successful tenderer shall sign and date the contract and return it to Procurement entity.

33. Performance Security

Within thirty (30) days of the receipt of notification of award from Procurement entity, the successful tenderer shall furnish the performance security in accordance with the Conditions of Contract, in the Performance Security Form provided in the tender documents, or in another form acceptable to Procurement entity.

Failure of the successful tenderer to comply with the requirement of paragraph 32 or paragraph 33 shall constitute sufficient grounds for the annulment of the award and forfeiture of the tender security, in which event Procurement entity may make the award to the next lowest evaluated Candidate or call for new tenders.

34. Corrupt Fraudulent Practices

32.1 Procurement entity requires that tenderers observe the highest standard of ethics during the procurement process and execution of contracts. In pursuance of this policy, Procurement entity: -

(a) Defines, for the purposes of this provision, the terms set forth below as follows:

- (i) “Corrupt practice” means the offering, giving, receiving or soliciting of any thing of value to influence the action of a public official in the procurement process or in contract execution; and
- (iii) “Fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of Procurement entity, and includes collusive practice among tenderer (prior to or after tender submission) designed to establish tender prices at artificial non-competitive levels and to deprive Procurement entity of the benefits of free and open competition;
- (b) Shall reject a proposal for award if it determines that the tenderer recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question;
- (c) Shall declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded any contract if it at any time determines that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing, a contract.

32.2 Furthermore, tenderers shall be aware of the provision stated in the General Conditions of Contract.

APPENDIX TO INSTRUCTIONS TO TENDERERS

REFERENCE	PARTICULARS OF APPENDIX TO INSTRUCTIONS TO TENDERS
2.1.1	This tender is reserved for WOMEN firms registered under AGPO scheme.
2.14.2	Fill, sign and submit the tender securing declaration form provided.
2.15.1	Tender validity period of 120 days after the date of opening of the tender
2.16.1	The Tenderer shall prepare two copies of the tender , clearly marking each “ ORIGINAL TENDER ” and “ COPY OF TENDER ,” as appropriate. In the event of any discrepancy between them, the original shall govern. All pages in the bid documents must be paginated, including those already paginated by KenGen.
2.18.1	Indicate day, date and time of closing Thursday, 7th June 2018 at at 2.00 p.m.
2.20.1	Opening day, date and time: Thursday, 7th June 2018 at at 2.30 p.m.
2.24.4	The following shall be the evaluation Criteria A) PRELIMINARY EVALUATION CRITERIA: i. Duly filled and signed Form of Tender. ii. Tender securing declaration form. iii. Confidential business questionnaire duly completed and attached iv. Mandatory site visit certificate. vi. Price Schedule duly completed and signed. vii. Certificate of incorporation or Registration and AGPO certificate for the women firm.

	<p>Viii. Valid Tax compliance certificate.</p> <p>ix. Joint Venture agreement and Power of attorney where applicable.</p> <p>x. A proof in form of certificate, from the original manufacturer of the pump giving authority to the tenderer to make the offer.</p> <p>xii. Warranty of two years.</p> <p>xiii. Addendum if applicable (communicated addendum must be signed and submitted with tender)</p> <p>xiv. Pagination/serialization of all pages of the bid document</p> <p>B) TECHNICAL EVALUATION CRITERIA:</p> <p>- See the evaluation criteria below.</p> <p>The bidder should be compliant in all the provided specifications to be considered for price evaluation. The pump model and country of origin must be stated in the tender.</p> <p><i>The technical evaluation will be based on the following Parameters. This will follow a "PASS/FAIL" scoring technique.</i></p> <p>C) FINANCIAL EVALUATION:</p> <ul style="list-style-type: none"> (b) The cost of components, mandatory spare parts and service of the submersible pump offered. (b) Delivery schedule offered in the tender and guaranteed period. (c) Deviations in payment schedule from that specified in the Special Conditions of Contract; (d) Details on after sales support including supply of spares for similar pumps implemented in the past. (e) Price read out from the form of tender during the opening shall be final and not subject to any correction or amendment. <p>The lowest evaluated total cost of ownership bidder for the pump shall be recommended for award.</p>
2.27.7	KenGen may at its own discretion conduct due diligence on the eligible bidders to establish their ability to perform the contract.
33.1	A performance bond of 10% of the contract amount shall be required from the awarded bidder.

B. TECHNICAL EVALUATION CRITERIA:

<p>1. Method statement on how the tenderer intends to execute the works. A tentative program shall accompany this. To be submitted in format on clause 23 item no.2</p> <p>2. Technical schedule shall be supported by brochures, data sheets and catalogue that shall clearly show the pump on offer.</p> <p>3. Qualifications and experience of key site management and technical personnel proposed for the contract. CVs to be submitted in the attached format 5A of standard forms section F.</p> <p>4. Equipment supplied viz quality, model and country of origin. Catalogues/brochures detailing the models and all the relevant/comprehensive information/data for the pump to be supplied shall be appended.</p> <p>5. Full compliance with technical specifications in terms of discharge, Maximum Head and technical support.</p>		
ITEM	EVALUA-TION ATTRI-BUTE	TENDER REQUIREMENT
6.	Compliance to Technical Specifications	<ul style="list-style-type: none"> a) Technical schedules dully filled-form 6A of standard forms section F b) Attachment of brochures, data sheets and catalogue that shall clearly show the pump on offer. c) The contractor shall provide a detailed installation design drawings for pump sanction and delivery side outlining the precise coupling to the existing structure in the drainage pit and taking in consideration of existing twin guide pipes and the entry to the duck foot. d) Two year pump guarantee by the supplier.
7.	Method statement on how the Tenderer intends to execute the works. Section C- General Conditions of Contract

PART I- GENERAL CONDITIONS

1. Definitions

1.1 In this Contract, the following terms shall be interpreted as indicated:

- (a) “The Contract” means the agreement entered into between Procurement entity and the tenderer, as recorded in the Contract Form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
- (b) “The Contract Price” means the price payable to the tenderer under the Contract for the full and proper performance of its contractual obligations.
- (c) “The tenderer” means the individual or firm supplying the submersible pump under this Contract.
- (d) The procurement entity means the organization purchasing the goods under this contract

2. Application

2.1 These General Conditions shall apply in all Contracts made by Procurement entity for the procurement of the submersible pump.

3. Country of Origin

- 3.1 For purposes of this Clause, “origin” means the place where the submersible pump was produced or manufactured.
- 3.2 The origin of the submersible pump is distinct from the nationality of the tenderer.

4. Standards

4.1 The submersible pump supplied under this Contract shall conform to the standards mentioned in the Technical Specifications.

5. Use of Contract Documents and Information

5.1 The tenderer shall not, without Procurement entity’s prior written consent, disclose the Contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of Procurement entity in connection therewith, to any person other than a person employed by the tenderer in the performance of the Contract.

- 5.2 The tenderer shall not, without Procurement entity's prior written consent, make use of any document or information enumerated in paragraph 5.1 above
- 5.3 Any document, other than the Contract itself, enumerated in paragraph 5.1 shall remain the property of Procurement entity and shall be returned (all copies) to Procurement entity on completion of the Tenderer's performance under the Contract if so required by Procurement entity.

6. Patent Rights

- 6.1 The tenderer shall indemnify Procurement entity against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the submersible pump or any part thereof in Kenya.

7. Performance Security

- 7.1 Within thirty (30) days of receipt of the notification of Contract award, the successful tenderer shall furnish to Procurement entity the performance security in the amount specified in Special Conditions of Contract.
- 7.2 The proceeds of the performance security shall be payable to Procurement entity as compensation for any loss resulting from the Tenderer's failure to complete its obligations under the Contract.
- 7.3 The performance security shall be denominated in the currency of the Contract, or in a freely convertible currency acceptable to Procurement entity and shall be in the form of a bank guarantee or an irrevocable letter of credit issued by a reputable bank located in Kenya or abroad, acceptable to Procurement entity, in the form provided in the tender documents.
- 7.4 The performance security shall be discharged by Procurement entity and returned to the Candidate not later than thirty (30) days following the date of completion of the Tenderer's performance obligations under the Contract, including any warranty obligations, under the Contract.

8. Inspection and Tests

- 8.1 Procurement entity or its representative shall have the right to inspect and/or to test the submersible pump to confirm its conformity to the Contract specifications. Procurement entity shall notify the tenderer in writing, in a timely manner, of the identity of any representatives retained for these purposes.
- 8.2 The inspections and tests may be conducted on the premises of the tenderer or its subcontractor(s), at point of delivery, and/or at the submersible pump's final destination. If conducted on the premises of the tenderer or its subcontractor(s), all

reasonable facilities and assistance, including access to drawings and production data, shall be furnished to the inspectors at no charge to Procurement entity.

- 8.3 Should inspected or tested submersible pump fail to conform to the Specifications, Procurement entity may reject the submersible pump, and the tenderer shall either replace the rejected submersible pump or make alterations necessary to meet specification requirements **free of cost** to Procurement entity.
- 8.4 Procurement entity's right to inspect, test and, where necessary, reject the pump after the pump's arrival shall in no way be limited or waived by reason of the pump having previously been inspected, tested, and passed by Procurement entity or its representative prior to the pump's delivery.
- 8.5 Nothing in paragraph 8 shall in any way release the tenderer from any warranty or other obligations under this Contract.

9. Packing

- 9.1 The tenderer shall provide such packing of the submersible pump as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the Contract.
- 9.2 The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the Contract.

10. Delivery and Documents

- 10.1 Delivery of the submersible pump shall be made by the tenderer in accordance with the terms specified by Procurement entity in its Schedule of Requirements and the Special Conditions of Contract.

11. Insurance

- 11.1 The submersible pump supplied under the Contract shall be fully insured against loss or damage incidental to manufacture or acquisition, transportation, storage, and delivery in the manner specified in the Special conditions of contract

12. Payment

- 12.1 The method and conditions of payment to be made to the tenderer under this Contract shall be specified in Special Conditions of Contract.
- 12.2 Payments shall be made promptly by Procurement entity as specified in the contract.

13. Prices

13.1 Prices charged by the tenderer for the submersible pump delivered under the Contract shall not, with the exception of any price adjustments authorized in Special Conditions of Contract, vary from the prices by the tenderer in its tender.

14. Assignment

14.1 The tenderer shall not assign, in whole or in part, its obligations to perform under this Contract, except with Procurement entity's prior written consent.

15. Subcontracts

15.1 The tenderer shall notify Procurement entity in writing of all subcontracts awarded under this Contract if not already specified in the tender. Such notification, in the original tender or later, shall not relieve the tenderer from any liability or obligation under the Contract.

16. Termination for Default

16.1 Procurement entity may, without prejudice to any other remedy for breach of Contract, by written notice of default sent to the tenderer, terminate this Contract in whole or in part:

- (a) If the tenderer fails to deliver the submersible pump within the period(s) specified in the Contract, or within any extension thereof granted by Procurement entity.
- (b) If the tenderer fails to perform any other obligation(s) under the Contract.
- (c) If the tenderer, in the judgement of Procurement entity has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.

16.2 In the event Procurement entity terminates the Contract in whole or in part, it may procure, upon such terms and in such manner as it deems appropriate, a submersible pump similar to the one undelivered, and the tenderer shall be liable to Procurement entity for any excess costs for the pump.

17. Liquidated Damages

17.1 If the tenderer fails to deliver the pump within the period(s) specified in the contract, Procurement entity shall, without prejudice to its other remedies under the contract, deduct from the contract prices liquidated damages sum equivalent to 0.1% of the price of the delayed pump per day up to a maximum of 10%.

18. Resolution of Disputes

18.1 Procurement entity and the tenderer shall make every effort to resolve amicably by direct informal negotiation any disagreement or dispute arising between them under, or in connection with, the contract.

18.2 If, after thirty (30) days from the commencement of such informal negotiations both parties have been unable to resolve amicably a contract dispute, either party may require adjudication in an agreed national or international forum, and/or international arbitration.

19. Language and Law

19.1 The language of the contract and the law governing the contract shall be English language and the Laws of Kenya respectively unless otherwise stated.

20. Force Majeure

The tenderer shall not be liable for forfeiture of its performance security, or termination for default if, and to the extent that, its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

PART II: SPECIAL CONDITIONS OF CONTRACT

1. Application

The following Special Conditions of Contract shall supplement the General Conditions of Contract. Whenever there is a conflict, the provisions herein shall prevail over those in the General Conditions of Contract.

2. Definitions (Clause 1)

The Procurement entity is **Kenya Electricity Generating Company Limited of Stima Plaza, Kolobot Road, Parklands, and P.O. BOX 47936 - 00100 GPO, Nairobi, Kenya** and includes the Purchaser's legal representatives, successors or assigns.

3. Performance Security (GCC Clause 4)

GCC 7.1—The amount of Performance Guarantee, as a percentage of the Contract Price, shall be: [Ten (10) percent of the Contract Price.

4. Delivery

Delivery period of these goods should be within eight (8) weeks from date of the contract signing.

5. Method Of Payment

The credit period shall be:-

5.1. (a) for local suppliers, Kenya Electricity Generating Company's payment terms are 30 days upon receipt of certified invoices and delivery notes confirming that the invoiced material has been delivered and is in accordance with the contract.

b) For overseas suppliers, payments shall be effected upon presentation of a complete set of shipping documents to the advising bank as will be stipulated in the Letter of Credit (LC)

5.2. (a) For Local Suppliers

Payment shall be made through Kenya Electricity Generating Company's cheque or telegraphic transfer for the amount of contract. The terms shall be:-
Strictly Delivered and Duty Paid (**DDP**).

(b) For Foreign Suppliers

Payment shall be through an LC under the following conditions:-

- (i) The supplier shall be required to meet all LC bank charges incurred in their country, while KenGen shall meet those incurred in Kenya.
- (ii) Any extension and or amendment charges and other costs that may result from the Supplier's delays, requests, mistakes or occasioned howsoever by the Supplier shall be to the Beneficiary's account.
- (iii) The maximum number of LC extensions shall be limited to a maximum of two (2) only, but not exceeding one quarter (3 months) each, at the cost of the beneficiary.
- (iv) Should the Supplier require a confirmed LC, then all confirmation and any other related charges levied by both the Supplier's and Procuring Entity's bank shall be to the Beneficiary's account.
- (v) The LC shall be opened only for the specific Order within the validity period of the contract
- (vi) LCs shall be partial for partial deliveries or full for one delivery as per the contract.
- (vii) A copy of the Performance Security, stamped and certified as authentic by the Procuring entity, whose expiry date should not be less than 30 days from the LC

expiry date, shall form part of the documents to be presented to the Bank before any payment is made.

(c) Advance Payment

Advance Payment is not applicable.

6. Manufacturers' authorization.

The Manufacturers authorization form must be submitted in the manufacturer's letterhead.

7. DISPUTES RESOLUTION:

Any dispute between the Parties as to matters arising pursuant to this Contract or its interpretation that cannot be settled amicably after receipt by one Party of the other Party's request for such amicable settlement shall first be referred to the Nairobi International Centre for Arbitration rules at the first instance for resolution before adoption of any other ADR mechanism.

Section D: Technical Specifications

Submersible pump

SECTION D: SCHEDULE OF REQUIREMENTS &

TECHNICAL SPECIFICATIONS.

1. Schedule Of Requirement

1.1. Obligation of Contractor

The contractor shall in accordance with the contract provide all the necessary equipment, tools, materials and labor superintendence to carry out the works diligently during the duration of the contract.

1.2. Program of work

The contractor shall submit to the Engineer for his approval, the program for the execution of works. No alterations to the program shall be made without the approval of the Engineer. An update of the program shall be the program showing the actual progress achieved on each activity and the effect of the progress achieved on the timing of the remaining work, including any changes to the sequence of the activities.

1.3. Safety precautions

The contractor shall be responsible for the safety of all activities on the site, and shall have a designated safety officer. The contractor shall comply to all KENGEN safety requirements and to include, proactive safety measures and practice, provision of PPEs and safety equipment.

1.4. Clearance of Site

The contractor shall from time to time during the progress of the works clear away and remove all surplus materials and rubbish. On completion of the works the contractor shall remove all contractors' equipment and leave the whole of the site and the works clean and in a workmanlike condition, to the satisfaction of the Engineer.

1.5. Operation and Maintenance Manual

The contractor shall submit two (2) hard copies of operation and maintenance manual and as built connection drawings

upon works completion.

2. Technical Specifications

Masinga Power Station is located about 150 Km from Nairobi off Thika-Garissa Road. The power station has two hydropower turbines of Kaplan type.

During maintenance and normal operations of the hydro-turbines, there is leakage water in the turbines area which is pumped and collected in a common pit referred to as the drainage pit. To empty this pit there are five submersible pumps (5No.) pump No.1-5 mounted in this pit. All the pumps discharge through individual pipes and are designed to allow reverse running during pipe emptying after the pumps stop, so that no valves are required in the discharge lines.

Pumps No.1-4 rated at 58KW and are all mounted at the same level and controlled by level switches mounted at four different levels of the pit. This water is discharged from the water pit located at the turbine floor in to a facility known as tailrace, outside the power house.

Pump No.5 rated at 13.5 KW is mounted at the lowest level of the pit and the primary function of this pump is to completely pump out all water in the pit to allow maintenance of any of the four 58KW pumps.

KenGen intent to procure the said pump No. 5 a FLYGT CP 3152 HT rated at 13.3KW or it equivalent and having the same functional and installation characteristic

3. Existing system

The existing pump is a FLYGT CP 3152 HT, rated at 13.5KW. The pump is designed with sliding bracket which slides on two-inch diameter twin guide pipes secured to the chamber wall as the pump is lowered into position (or raised). This is done by means of a suitable hoist without breaking any connections (no connections are unscrewed). The pumps are designed to provide automatic coupling to discharge connection (duck foot) inlet of 6-inch diameter in size.

SCOPE OF WORK

The work specified in the contract shall include:

1. **Supply of submersible pump**

Supply of one submersible pump complete with sliding bracket and integral motor and 50m long submersible supply power cable of size $4 \times 4 \text{mm}^2$ and similar length of control/protection cable of size $4 \times 1.5 \text{mm}^2$ for motor thermal overload protection and winding temperature monitoring. The pump shall be of similar design to the existing ones (Appendix 1 attached) and **be able to deliver 266m³/h (Maximum) and 40m³/h (Minimum) at 24m head.**

The pressure at maximum delivery flow is 0.68 bars and pressure at minimum delivery flow is 2.6 bars

The supplied motor shall be of 3 phases 13.5KW, 415V, 25Amp, 50HZ, 1450 RPM continuous operation and the installation altitude is 988 meters above sea level. It shall be compatible to the existing motor control drive/board. Details of the existing motor are as attached (Appendix 2)

The pump should be able to handle silted water. Maximum particle size the pump can pass should be indicated. The impeller throughlet must be indicated.

2 Installation

The contractor shall install the pump, the sliding bracket will be of such design that the pump will hook naturally on the existing stool arrangement for existing pump. The pump design shall be such that it can be removed from the sump by means of a suitable hoist without breaking any connections (no connections need be unscrewed). The pump is to be lowered into position (and raised) in the pump chamber on two-inch diameter twin guide pipes secured to the chamber wall and should be designed to provide automatic coupling of the pump to the discharge connection (duck foot) inlet of size DN150.

The pump should be complete with lifting bracket and 20m high tension stainless steel lifting chain. Motor should be rated for continuous operation and have thermal overload protection incorporated in the windings for additional protection.

3 Commissioning

The contractor shall develop test and commissioning procedures with test recording sheets. The contractor shall commission the submersible pump after installation in the drainage pit.

Test shall be performed to establish the correct functionality and operations within the designed pump characteristics and to prove the adequacy of the materials and the workmanship.

IMPORTANT

To enable the Employer undertake conclusive evaluation of the tender, tenderers are requested to submit with their offers, detailed specifications, drawings and catalogues with commissioning and maintenance instructions for the product they intend to supply.

Tenderers who fail to comply with this requirement fully shall have their tenders rejected

4 Appendix

Attached (Appendix 1 to 5) are technical details necessary for this bid.

- i. Appendix 1 - Pump technical specifications.
- ii. Appendix 2 - Motor technical specifications
- iii. Appendix 3 - Detailed drawing of the drainage pit arrangement of pumps and delivery pipes.
- iv. Appendix 4 - Details of existing pump.
- v. Appendix 5 - Pump characteristics curves.

The **successful Tenderer shall complete the Contract Form** during the finalization of the contract award.

The **Performance security Form** should be completed by the successful Tenderer who shall be required to provide performance security in accordance with the forms indicated herein or in the another form acceptable to the purchaser but must be on the letter head of the issuing bank.

TENDER FORM

To: Kenya Electricity Generating Company Limited,
Stima Plaza Phase III, Kolobot Road, Parklands,
P.O Box 47936-00100,
NAIROBI. Kenya.

Gentlemen and/or Ladies:

Having examined the Tender documents including, the receipt of which is hereby duly acknowledged, we, the undersigned, offer to provide **submersible pump** in conformity with the said Tender documents for the sum of

Or such other sums as may be ascertained in accordance with the Schedule of Rates attached herewith and made part of this Tender.

The equipment supplied shall be under warranty for a period of _____

We undertake, if our Tender is accepted, to deliver the *submersible pumps* within our stipulated duration of _____

If our Tender is accepted, we shall obtain the guarantee of a bank in a sum equivalent to 10% percent of the Contract Price for the due performance of the Contract, in the form prescribed by the Employer.

We agree to abide by this Tender for a period of **120 days** from the date fixed for Tender opening under Clause 15 of the Instructions to Tenderers, and it shall remain binding upon us and may be accepted at any time before the expiration of that period.

Until a formal Contract is prepared and executed, this Tender, together with your written acceptance thereof and your notification of award, shall constitute a binding Contract between us.

We understand that you are not bound to accept the lowest or any tender you may receive.

Dated this _____ day of _____ 2018.

CONTRACT FORM

THIS AGREEMENT made the ____ day of _____ 2018 between **Procurement entity** of Kenya (hereinafter called “the Employer”) of the one part and _____ (hereinafter called “the Contractor”) of the other part:

WHEREAS the Employer invited tenders for submersible pumps has accepted a tender by the Contractor for the provision of the supply in the sum of _____ (words) _____ (figures] (hereinafter called “the Contract Price”).

NOW THIS AGREEMENT WITNESSETH AS FOLLOWS:

1. In this Agreement words and expressions shall have the same meanings as are respectively assigned to them in the Conditions of Contract referred to.
2. The following documents shall be deemed to form and be read and construed as part of this Agreement, viz.:
 - (a) The Tender Form and the Price Schedule submitted by the Tenderer;
 - (b) The Schedule of Requirements;
 - (c) The General Conditions of Contract;
 - (d) The Special Conditions of Contract; and
 - (e) The Employer’s Notification of Award.
3. In consideration of the payments to be made by the Employer to the Contractor as hereinafter mentioned, the Contractor hereby covenants with the Employer to provide the services and to remedy defects therein in conformity in all respects with the provisions of the Contract
4. The Employer hereby covenants to pay the Contractor in consideration of the provision of the submersible pumps and the remedying of defects therein, the Contract Price or such other sum as may become payable under the provisions of the contract at the times and in the manner prescribed by the contract.

IN WITNESS whereof the parties hereto have caused this Agreement to be executed in accordance with their respective laws the day and year first above written.

Technical Schedules Form-6A

Bidders shall complete the technical schedules in their entirety at the time of tendering. The schedules are extracted from the main specifications. Refer to the main specification and annexes for details.

Note 1

The bidder is expected to indicate, as the case may apply,

- Equipment rating, features, standards used, etc
- Whether the offer complies with the specified clause of the tender document (Compliant or Not Compliant)

Note 2

The contractor shall provide layout drawings, detailed drawings, brochures, datasheets as reference documents that shall clearly show the equipment offered, associated features indicated in the technical schedule.

REQUIREMENTS FOR THE DEWATERING PUMP.			
Item No.	Item	Description ¹	Reference in bid documents ²
1	Pump make and model.		
2	Maximum delivery flow		
3	Minimum delivery flow		
4	Maximum delivery flow pressure		
5	Maximum delivery flow pressure		
6	Suction pressure		
7	State maximum particle size the pump can handle.		
8	State installation altitude above sea level for the pump		
9	Material of the impeller		
10	Materials of pump casings and stator housing.		
11	State method of suction pipe connection		
12	State type and size of delivery pipe connection		
13	State pump provision of lifting bracket		
14	State provision of 20M high tensile stainless steel lifting chain.		
15	Weight of the pump		

16	Weight of the motor		
17	Pump rated output		
18	Rated current		
19	Rated voltage, phases and frequency.		
20	Rated speed and efficiency		
21	State insulation class and IP protection of the motor		
22	Pump operating mode (continuous or intermittent)		
23	Starting torque		
	Pump operation characteristics curves- attach curves and necessary data.		
24	State size and length of power cable		
25	State size and length of control cable		
26	State method of winding temperature control
