TENDER FOR OVERHAUL AND PARTS REPLACEMENT OF WOODWARD PGG EG-200 GOVERNOR ACTUATORS NO. KGN-KIP-06-2018

ADDENDUM NO.2

In accordance with the tender for OVERHAUL AND PARTS REPLACEMENT OF WOODWARD PGG EG-200 GOVERNOR ACTUATORS KenGen hereby wishes to issue Clarification No. 1 as follows,

NO	BIDDERS CLARIFICATION	KENGEN RESPONSE
1.	In the tender, stipulates that we must set a price including the pieces to change, the problem is that before dismantling the governor, we do not know the pieces that we would have to change?	The quotation should include all the replacement costs for standard services/replacement parts.
2	We would like to know the status of the governors, are they currently in operation or are they in stock?	None of the governors are in stock at the moment.
3	Is there a governor out of service or broken?	The governors to be overhauled are not in operation at the moment having been removed from service after about 12,00Hrs service – at that point they are all due for major overhaul. However when they were being removed all of them were mechanically sound.

ACKNOWLEDGEMENT OF CLARIFICATION NO.1

We, the undersigned hereby certify that the addendum is an integral part of the document and the alterations set out in the Addendum have been incorporated in the tender proposal.
